ipk and deploy all types of applications, from easy-to-use code generators to complete embedded OSs. Keil® MDK tools and expert support are key to accelerating your development and testing workflow, and delivering quality solutions on time and on target. Get MDK tools, support and more with the MDK Edition and get great price and value for your software development in the market. Reduce development time. Get started with the MDK Edition and save up to 85% compared to purchasing each individual development tools or individual developer edition separately. Protect your IP and business. Use the MDK Edition to ensure that your software can't be copied and your IP isn't infringed. Be up to date. Use MDK Tools and platforms to get the latest ARM® Cortex®-M0, M3, M4, M7, M8, M16, M32, M33, M51 and M52 CPUs. $b - 4 = -5v$. Suppose $b = 5d - 11 + 1$. What is the units digit of d ? 2 Suppose $-10 = -5a - 5$. Let o be $(-8)/(-2 - 0)a$. Suppose $oq = -0q + 32$. What is the units digit of q ? 8 Let $g(x) = -7x + 10$. Let y be $g(-6)$. Let c be $3/(3/2) + 0$. Suppose $2p - y = -2n$, $-p = c*p + 3n - 115$. What is the tens digit of p ? Suppose $-2q - 3q - 130 = 0$. Let $z = q + 49$. What is the tens digit of z ? Suppose $-3z - 9 = -0z$. Let $x = z - -1$. What is the units digit of $x/6 - (-88)/12$? 7 Suppose $-2h = h + 6$. What is the units digit of $(-11)/(-2) + (-2)/h$? 5 Suppose $2i = -3d + 47$, $-2d - i + 24 = i$. Let $g(u) = -u^2 - 5u - 2$. Let y be $g(-3)$. Suppose $-2a + y = -d$. What is $82157476af$
